Dear Student

The Arabic language is one of the oldest languages after Hebrew. It existed way before the time of Islam (see Acts 2:11). They call that period of time the time of the great poets and great poems. Islam began in the Arabian Peninsula, where the religion adopted the Arabic language as its own.

The United States is the lighthouse of the world. During the last century, America sent missionaries to many parts of the Middle East. Because our prayer is to be obedient to the great commission, we desire to help missionaries learn the Arabic language in order to spread the Good News of the Gospel more effectively. We long for the Arab nations to see the love of our Lord Jesus, and we pray that they may accept Him as their Savior.

Languages are a gift from God, and having more than one language at your disposal can be a tremendous blessing. In these times of uncertainty, Arabic speakers are also needed by our government to aid in homeland security and the war on terrorism.

Arabic is considered a difficult language (category 4), but it is no more difficult than the oriental languages. You will also find that Arabic grammar and English grammar have many similarities.

Whether you are a missionary, an interpreter, or whether you desire to help ensure the safety of America, you are welcome to come and be a part of our class!

Sincerely

Pastor George Saieg  
Director of M2M Network
